Staying safe online

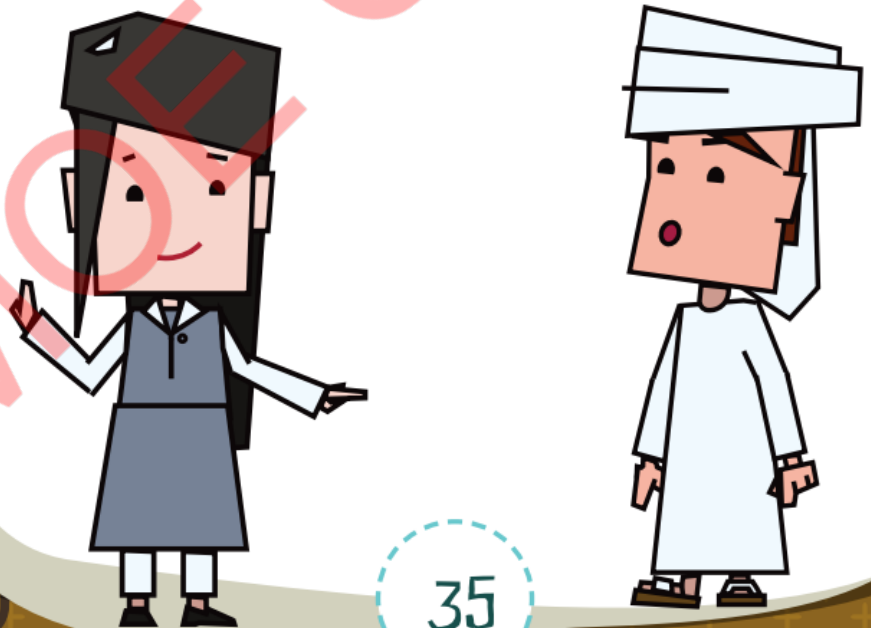
Personal privacy

We have a lot of personal information on the **Internet**.

Did You Know?

Personal information is anything that can identify you. It can be anything connected to you. For example:

- Name
- Date of Birth
- Home Address



All rights reserved. No part of this book may be reproduced, stored in a retrieval system or transmitted in any form or by any means without prior permission in writing from the publisher.

Some apps need this information.

For example, food delivery service needs:

Home address

Credit card information

This helps them deliver food to your home.

But it is important to keep this information **safe**.
