16 | Inquiries and Contact

Introduction

In preparation for the new academic year 2026-2027, the Ministry of Education is providing the opportunity for public school students - from kindergarten to Grade 12 - to obtain school uniforms from Lulu Hypermarket Group outlets in various regions of the country or through the group's website.

The Ministry of Education is keen to provide an organised educational environment that promotes the values of belonging and national identity among students, and the school uniform is one of the important elements that contribute to promoting discipline and equality among students within the school community.

This guide was prepared with the aim of serving parents and making it easier for them to obtain the approved school uniform, clarifying information related to approved prices, sales outlets and exchange mechanism, thus ensuring an easy and clear experience for all beneficiaries.

First: Guidelines for purchasing school uniforms

We hope that parents will review the following guidelines to ensure a smooth and comfortable purchasing experience:

01

Carefully review the approved price list, as prices are fixed and cannot be increased by retailers.

02

Review the exchange policy before making your purchase.

03

It is recommended to purchase school uniforms well before the start of the school year to avoid crowds and ensure size availability.

04

It is essential to ensure your child wears the appropriate school uniform for their grade level.

05

Make sure you select the correct size and try on the uniform before leaving the store.

06

Make sure you check the working hours before going to the sales outlets.

07

Keep your receipt to guarantee your rights to exchange the uniform if needed.

Second: Exchange Policy

To ensure parental satisfaction, the following procedures have been adopted for exchanging school uniforms:

01

Uniforms may be exchanged in cases where the size is unsuitable, or where the uniform has a manufacturing defect or damage. Exchange requests must be submitted within a period not exceeding (10) days from the date of purchase

03

The parent or authorized representative must go to the same point of sale where the purchase was made, with providing proof of purchase.

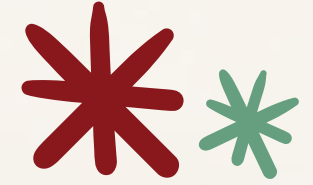

02

The original invoice must be presented to complete the exchange process.

Note:

Retail outlets are responsible to take the necessary steps to replacement or return, and to providing the required support.

Third: Procedures for tailoring school uniforms

To better meet the needs of parents and students, a tailoring service is available at sales outlets for students who require uniform adjustments beyond the standard sizes (e.g., length, width, or other measurements), subject to the following:

01

Special sizes refer to sizes that differ significantly from standard sizes.

03

Parents can visit the nearest authorised retailer to have measurements taken and submit a tailoring request.

02

The school uniform may be tailored after confirming that the available sizes are not suitable.

04

Requests for tailored school uniforms must be submitted well before the start of the school year to ensure accurate sizing and timely availability.

Guidelines on school uniform and student appearance during school hours

To promote discipline and positive citizenship, the Ministry of Education has established school uniform and appearance standards. Regular inspections will be conducted to ensure all students comply with the approved requirements and reflect the positive image of the Emirati learner.

- 01** All students are required to wear the approved school uniform specific to their cycle.
- 02** The school uniform must be neat, tidy, and clean.
- 03** Students must wear the sports uniform during Physical Education (PE) classes according to the school timetable
- 04** Students must wear flat, fully enclosed black shoes with the school uniform (or black sports shoes) along with white socks. Sports shoes may also be worn with the school sports uniform on Physical Education (PE) days or during extracurricular activities and events

- 05** Male students must wear white undergarments under the kandura with formal or sports shoes; an essama is optional.
- 06** Maintain a neat hairstyle of appropriate length and style in line with the values of the UAE, while keeping the natural hair colour.
- 07** Female Cycle 3 students can wear a black, white or navy blue shayla with the approved school uniform.
- 08** Nail polish and makeup are not allowed in school.

Note:

Parents will be notified of any non-compliance with the school uniform and appearance regulations to ensure students meet the required standards.

Kindergarten
